### 2) Soccer Shots MINI Program (Age 2): Introduction

The MINI program centers around fun games, songs, and positive reinforcement. We will introduce very basic fundamental soccer principles, such as using your feet, dribbling, balance, coordination, and the basic rules of the game.

### 3) 2 Year Olds: Age Appropriate Expectations

Two year olds enjoy playing alongside one another but usually keep to themselves. Exploring, noticing patterns, sorting, and stacking are all skills used by this age group to learn about the world around them. Our coaches will incorporate these skills, colors, animals, and other imaginative concepts as well as provide lots of praise and positive reinforcement. The focus will be on soccer skills (dribbling, passing) as well as gross motor skills (kicking, hopping) and fine motor skills (showing fingers for numbers "peace sign for two", favoring one hand or foot over the other). Sometimes they will use their hands and that's okay at this age. We typically do not scrimmage at this age. Sessions for this age run about 30 minutes. Do not be discouraged if your 2 year old does not catch on or connect with the coach immediately. Oftentimes it takes a week or two for this connection to develop and for them to become comfortable with their surroundings.
